

HOUSTON EB5

PROJECT NEWS

Landrace Continues to Make Headlines

Thompson San Antonio, a recently completed Houston EB5 project, offers incredible restaurant concepts by world renowned chefs. Since moving to San Antonio from New Orleans in 2010, Chef Steve McHugh has been shaking things up in the Texas culinary scene, including being a four-time James Beard Foundation Award finalist for Best Chef: Southwest and a 2020 finalist for Best Chef: Texas. His newest operation, Landrace, located inside the Thompson San Antonio hotel, serves seasonal options that allow McHugh to take cooking back to its most elemental form with dishes made from Texas ingredients cultivated by local farmers and ranchers. Texas Highways spoke with McHugh about Mardi Gras in Texas and how his New Orleans inspired menu reflects his time in the Big Easy.

INDUSTRY NEWS

EB-5 Policy Updates

It appears that the appropriations bill could be passed as early as March 11. The industry is currently finalizing language on the EB-5 reauthorization bill that is expected to be included together with the appropriations bill. We are now as hopeful as ever. For existing investment partners, this would mean that their immigration process will be taken off hold and will continue. For potential investment partners this would mean that we will now be also able to offer opportunities in real estate development projects.
